

A Smart Investment

If an oil deposit was located on your property, wouldn't you want to draw it out? More solar energy hits the earth in one hour than all humanity can consume in a year; the sunlight hitting your roof can provide enough energy for your hot water needs year-round. An Sun Pro Solar System a tested and proven method that will allow you to harness this energy supply.

Your Sun Pro Solar System is the only household appliance to pay for itself several times during its useful life. It will provide for your family's household hot water needs year round, even on cloudy days. Let us help you put the sun in your pocket and you can keep the change!

Your Sun Pro Solar System uses heat from the sun to provide a clean, renewable energy source that will give you comfortable, reliable, hot water, without the cost of traditional water heating.

Designed to be maintenance free, your Sun Pro Solar System comes with a ten year manufacturer warranty guaranteeing you years of hassle-free, FREE HOT WATER!

See the difference...Feel the difference...Make a difference

A Smart Investment

- Why rent your monthly energy when you can own a lifetime of free hot water?
- Solar systems provide energy independence. Though energy costs continue to rise at increasingly rapid rates, you will be protected.
- Your Sun Pro Solar System will immediately reduce your current energy expenses, in some cases, up to 38%. The more hot water you use, the more money you save.
- Solar Thermal is recognized as the most efficient renewable technology.
- Federal and State incentives, credits, and rebates are available to reduce your installation costs. Some local utility companies even provide further incentives. (SunPro SolarSystems.com)
- Take responsibility for improving the environment for you and your family by taking advantage of a renewable energy source without sacrificing comfort.
- Support the U.S. Economy: Renewable Energy Companies are the fastest growing sector of the modern American economy.

Since 1975, Alternate Energy Technologies, and its predecessors, have designed solar water heating systems that produce 80 to 4,500 gallons of hot water a day. AET manufactures equipment that is affordable, reliable, maintenance free and is rated highest in efficiency. These fully automatic systems are easy to install and may adapt to your current system. They are made of the finest quality materials for maximum performance and durability. Products and workmanship are 100% guaranteed.

Your Authorized Dealer will provide you with a job survey and site analysis to assure proper placement and Installation.
